

REMARKS/ARGUMENTS

Favorable consideration and entry of the present Amendment is respectfully requested.

Claims 6, 7, 12, 15-23, and 25-30 are allowed.

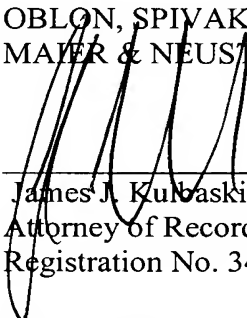

The specification is amended herewith to correct minor formalities uncovered during Applicant's post-allowance review of the application and are being timely and diligently corrected. These amendments merely embody the correction of formal matters in the specification, and do not change the intended scope of the claims.

The changes are consistent with the remainder of Applicant's figures and specification, and are thus not believed to raise a question of new matter. Additionally, it is respectfully submitted that no additional search or examination is required because the amendments merely clarify Applicant's invention.

In view of the prior indication of allowability, no further issues are outstanding, and entry of the present Amendment is believed to be in order and is respectfully requested so that the patent which issues from this application includes the presently submitted changes.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
